2 . 3 .	Was located in a barracks installation near the Ineu (R 26/U 58) railroad of the installation consisted of 6 brick buildings occupied by the cadre personal tendence instructors with their dependents and the trainees. The school attended by captains, lieutenants and NCOs, the latter apparently officer candidates from 23 to 25 years old. The school was assigned to the War Ministry in Bucharest. Commandant of the installation, which was periodically inspected by officers of the War Ministry was a Rumanian colonel. Fight to 10 field grade officers were assigned to trinstallation as instructors. No Soviet soldiers were seen there. The trainees of this school did not bear arms while they were in the area of the installation. When units were marched out, half of them were armed with rifles, the other half with submachine guns. We motor vehicles were seen except for some sedans. Detachments of up to 200 men frequently went to Mocrea (R 26/U 48) where, target ranges and a training area were available. Another barracks installation was under construction on the northern bank of the Crisul Alb River. The payments for this construction work were made through a military office in Bucharest, The new barracks installation consisted of 6 to 8 three-story quartering buildings. In November 1951, it not yet occupied.	station. onnel, was stry, che 25) 25) er call.
